NFIB SMALL BUSINESS ECONOMIC TRENDS

NFIB Research Center has collected Small Business Economic Trends Data with Quarterly surveys since 1973 and monthly surveys since 1986. The sample is drawn from the membership files of the National Federation of Independent Business (NFIB). Each was mailed a questionnaire and one reminder. Subscriptions for twelve monthly SBET issues are \$250. Historical and unadjusted data available, along with a copy of the questionnaire, from the NFIB Research Center. You may reproduce Small Business Economic Trends items if you cite the publication name and date and note it is a copyright of the NFIB Research Center. © NFIB Research Center. ISBS #0940791-24-2. Chief Economist William C. Dunkelberg and Executive Director of the NFIB Research Center Holly Wade are responsible for the report.

SUMMARY

OPTIMISM INDEX

The Optimism Index decreased 0.8 points in March to 90.1. This is the fifteenth consecutive month below the 49-year average of 98. The last time the Index was at or above the average was December 2021. Twenty-four percent of owners reported that inflation was their single most important problem in operating their business, down 4 points from last month and 13 points lower than last July's highest reading since 1979 Q4. Owners expecting better business conditions over the next six months was unchanged from February at a net negative 47 percent, although 14 percentage points better than last June's reading of net negative 61 percent. Forty-three percent of owners reported job openings that were hard to fill, down 4 points from February, remaining historically very high. The net percent of owners raising average selling prices decreased 1 point to a net 37 percent seasonally adjusted. The net percent of owners who expect real sales to be higher deteriorated 6 points from February to a net negative 15 percent.

LABOR MARKETS

Forty-three percent (seasonally adjusted) of all owners reported job openings they could not fill in the current period, down 4 points from February. Thirty-four percent have openings for skilled workers (down 4 points) and 19 percent have openings for unskilled labor (unchanged). The difficulty in filling open positions is particularly acute in the construction, transportation, and wholesale sectors. Openings are lowest in the finance sector. Owners' plans to fill open positions remain elevated, with a seasonally adjusted net 15 percent planning to create new jobs in the next three months, down 2 points from February and 17 points below its record high reading of 32 reached in August 2021. Overall, 59 percent reported hiring or trying to hire in March, down 1 point from February. Fifty-three percent (90 percent of those hiring or trying to hire) of owners reported few or no qualified applicants for the positions they were trying to fill (down 1 point). Twenty-six percent of owners reported few qualified applicants for their open positions (down 4 points) and 27 percent reported none (up 3 points).

CAPITAL SPENDING

Fifty-seven percent reported capital outlays in the last six months, down 3 points from February. Of those making expenditures, 40 percent reported spending on new equipment (unchanged), 23 percent acquired vehicles (down 3 points), and 11 percent spent money for new fixtures and furniture (down 1 point). Fifteen percent improved or expanded facilities (down 3 points) and 6 percent acquired new buildings or land for expansion (unchanged). Twenty percent plan capital outlays in the next few months, down 1 point from February and historically very weak.

SALES AND INVENTORIES

A net negative 6 percent of all owners (seasonally adjusted) reported higher nominal sales in the past three months, unchanged from February. The net percent of owners expecting higher real sales volumes deteriorated 6 points to a net negative 15 percent. The net percent of owners reporting inventory increases was unchanged at a net negative 1 percent. Not seasonally adjusted, 13 percent reported increases in stocks (unchanged) and 17 percent reported reductions (down 2 points). Nineteen percent of owners recently reported that supply chain disruptions still have a significant impact on their business (down 1 point). A net 1 percent of owners viewed current inventory stocks as "too low" in March, up 5 points from February. By industry, shortages are reported most frequently in transportation (18 percent), retail (17 percent), manufacturing (16 percent), and wholesale (16 percent). A net negative 4 percent of owners plan inventory investment in the coming months, up 3 points from February.

COMPENSATION AND EARNINGS

Seasonally adjusted, a net 42 percent reported raising compensation, down 6 points from February. A net 22 percent plan to raise compensation in the next three months, down 1 point from February. Eleven percent cited labor costs as their top business problem, down 1 point from February. Twenty-three percent said that labor quality was their top business problem (up 2 points). Labor quality remains in second place behind "inflation" by 1 point as the top business problem. The frequency of reports of positive profit trends was a net negative 18 percent, 5 points better than February. Among owners reporting lower profits, 31 percent blamed weaker sales, 23 percent blamed the rise in the cost of materials, 13 percent cited the usual seasonal change, 9 percent cited lower prices, 8 percent cited labor costs, and 3 percent cited higher taxes or regulatory costs.

CREDIT MARKETS

Two percent of owners reported that all their borrowing needs were not satisfied (down 1 point). Twenty-nine percent reported all credit needs met (up 4 points) and 59 percent said they were not interested in a loan (down 3 points). A net 9 percent reported their last loan was harder to get than in previous attempts (up 4 points). Three percent reported that financing was their top business problem (up 1 point). A net 26 percent of owners reported paying a higher rate on their most recent loan, up 2 points from February. The average rate paid on short maturity loans was 7.8 percent, 0.1 percentage points below February's highest level (also in November) since March 2008. Thirty percent of all owners reported borrowing on a regular basis (unchanged).

INFLATION

The net percent of owners raising average selling prices decreased 1 point from February to a net 37 percent seasonally adjusted, the lowest since April 2021. Unadjusted, 11 percent (down 1 point) reported lower average selling prices and 50 percent (unchanged) reported higher average prices. Price hikes were most frequent in wholesale (71 percent higher, 16 percent lower), retail (61 percent higher, 8 percent lower), construction (57 percent higher, 8 percent lower), and finance (56 percent higher, 8 percent lower). Seasonally adjusted, a net 26 percent plan price hikes (up 1 point).

COMMENTARY

While prospects for the economy continue to dim, the widely expected recession has not yet appeared. Fourth quarter growth was shaded down to 2.6%, inventory accumulation accounted for 60% of the total growth. Weakness in residential construction took 1.2 percentage points off of the growth rate and will continue to be a negative in the first guarter numbers. Hiring plans fell to their lowest level since May 2020.

There are major uncertainties ahead, most immediate is concern that a banking crisis could develop. This usually results from too many risky loans going bad, including auto and consumer credit. However, the current issue resulted from poor risk management. The Fed kept rates too low for too long, encouraging the growth of risky assets. Lots of investments looked good with a 2% cost of funds and bank savings paid virtually nothing.

The Fed's concern was deflation. Then Covid and a tidal wave of money from the government hit the economy. These funds were deposited in bank accounts. Banks could not get it productively loaned out, so they put the money into long-term Treasury bonds (short term yields were low). The spending plus supply problems produced inflation and triggered the 475 basis point Fed rate hike. Concern about an economic slowdown and the safety of uninsured deposits triggered a run on deposits at a few banks who were forced to liquidate their Treasury bonds. Silicon Valley Bank took a huge loss liquidating their long term Treasury bonds as new bonds had interest rates double what the existing bonds promised which were sold only at a lower price. New regulators appear to have put an end to the run on deposits for now by extending insurance on all deposits, but there is concern that other financial problems might develop. The \$250,000 limit was set in 2008, but inflation has increased 40% since then, reducing the real value of the insurance protection.

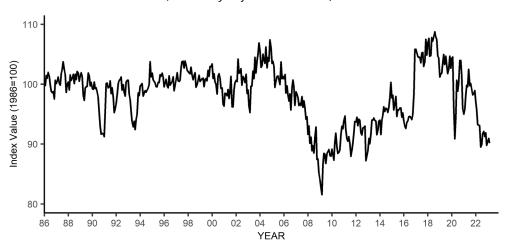

Then there is the debt ceiling debate. Democrats want the ceiling raised so they can borrow more money for their spending agenda. Republicans want spending reductions and re-establishment of a budget process, rather than continuing resolutions that just roll over current spending authorizations. Tax revenues are more than adequate to pay interest on the debt and expiring debt can be rolled over into new debt without violating the ceiling. But interest on the debt is increasing as the Fed raises rates and must be paid to avoid a default. Thus, other spending (like \$80 billion for the IRS) might have to be scrapped. These negotiations always go to the last minute as they often do.

All of this weighs heavily on small business owners, almost all of whom now see deteriorating business conditions and poor prospects for sales. Optimism has been at recession levels for a year. But unexpectedly strong consumer spending has kept Main Street alive and supported strong labor demand.

SMALL BUSINESS SURVEY QUESTIONS	PAGE IN REPORT
Do you think the next three months will be a good time for small business to expand substantially? Why?	5
About the economy in general, do you think that six months from now general business conditions will be better than they are now, about the same, or worse?	6
Were your net earnings or "income" (after taxes) from your business during the last calendar quarter higher, lower, or about the same as they were for the quarter before?	7
If higher or lower, what is the most important reason?	7
During the last calendar quarter, was your dollar sales volume higher, lower, or about the same as it was for the quarter before?	8
Overall, what do you expect to happen to real volume (number of units) of goods and/or services that you will sell during the next three months?	8
How are your average selling prices compared to three months ago?	9
In the next three months, do you plan to change the average selling prices of your goods and/or services?	9
During the last three months, did the total number of employ in your firm increase, decrease, or stay about the same?	
If you have filled or attempted to fill any job openings in the past three months, how many qualified applicants were there for the position(s)?	10
Do you have any job openings that you are not able to fill right now?	11
In the next three months, do you expect to increase or decrease the total number of people working for you?	11
Over the past three months, did you change the average employee compensation?	12
Do you plan to change average employee compensation during the next three months?	12

SMALL BUSINESS SURVEY QUESTIONS	PAGE IN REPORT
Areloans easier or harder to get than they were three months ago?	13
During the last three months, was your firm able to satisfy its borrowing needs?	14
Do you expect to find it easier or harder to obtain your required financing during the next three months?	14
If you borrow money regularly (at least once every three months) as part of your business activity, how does the rate of interest payable on your most recent loan compare with that paid three months ago?	15
If you borrowed within the last three months for business purposes, and the loan maturity (pay back period) was 1 year or less, what interest rate did you pay?	15
During the last three months, did you increase or decrease your inventories?	16
At the present time, do you feel your inventories are too large, about right, or inadequate?	16
Looking ahead to the next three months to six months, do you expect, on balance, to add to your inventories, keep them about the same, or decrease them?	16
During the last six months, has your firm made any capital expenditures to improve or purchase equipment, buildings, or land?	17
If [your firm made any capital expenditures], what was the total cost of all these projects?	18
Looking ahead to the next three to six months, do you expect to make any capital expenditures for plant and/or physical equipment?	. 18
What is the single most important problem facing your business today?	19
Please classify your major business activity, using one of the categories of example below	. 20
How many employees do you have full and part-time, including yourself?	20
